

Call for testimonies!

SHARE YOUR STORY

OIDAC Europe is producing a short documentary about the phenomenon of **Self-censorship** among **Christian university students in Europe** and its effects on **Freedom of Speech!**

Therefore, we will invite **8 students** from different European countries to **Vienna** to **share their stories** (flights and accommodation will be covered by OIDAC).

We will exchange our experiences of **self-censorship** at **university/school**, film personal **interviews** and b-roll footage.

Why?

The **freedom to express** our beliefs freely and publicly is one of the cornerstones of a **democratic society**. In this project, we will reflect on how this freedom is affected, when universities don't provide a **neutral space for open discussions**. We want to inspire a spirit of **mutual respect** towards different world views.

Studies show that the phenomenon of “**self-censorship**” is already negatively affecting different groups of **society** (for religious and non-religious people alike) and we believe it is crucial to **raise awareness** about this problem to avoid a normalisation of it.

We are looking for:

- Young Christians who have felt alone or intimidated when trying to live in accordance with their faith at school or university.
- People who are longing to build bridges of common values like tolerance and diversity with persons who think differently.

When & Where?

3 - 6 MAY 2023
Vienna/Austria

The casting is open until the 29th of March 2023.
